

# Technical Data Sheet

## 1.0 - 4.0 mm, EPDM Rubber Granulate

### Black (recyclate)

#### Application

Primary applications include athletic tracks and multisport surfaces, children playground safety flooring, prefabricated slabs and roll goods for different surfacing solutions. This material can be spreaded-applied, paved or mixed and troweled in place with appropriate equipment in conjunction with an approved one or two component binder or coating. The material can also be processed in industrial manner.

#### Packaging

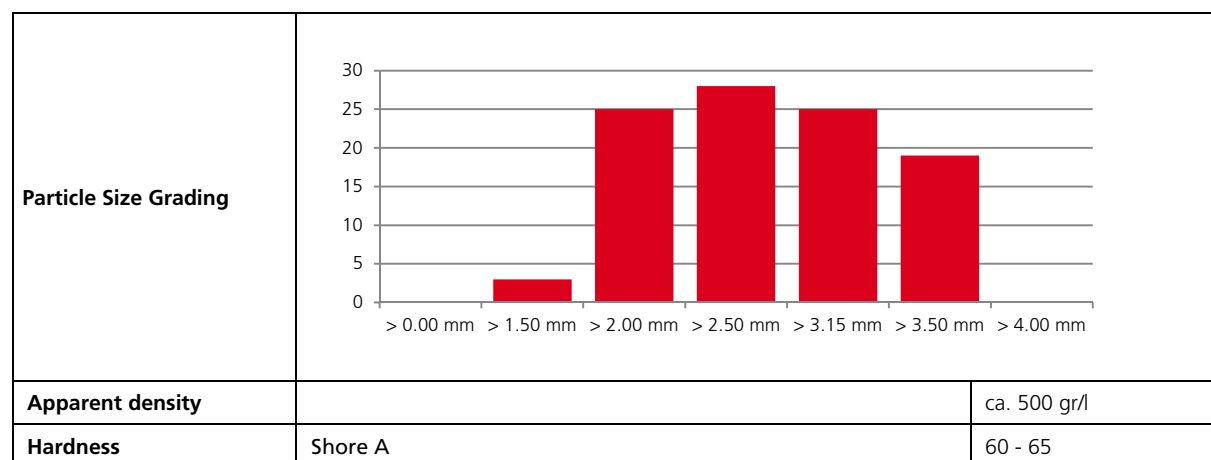

25 kg PE-Bags UV-resistant, on 1 tone pallets (40 bags)

#### Storage / Handling

Keep material dry at all times and out of direct UV radiation while in the plastic bags. Read the Datasheet for Safe Handling before using the product.

#### Note

Avoid contact with oil, gasoline, benzene or similar substances.

#### Disclaimer

The data included in this sheet are indicative values subject to manufacturing tolerances. Is responsibility of the user to test the product's aptitude to the intended use and to satisfy themselves as to contents and suitability. The information herein is to assist customers in determining whether our products are suitable for their application. Our products are intended for sale to industrial and commercial customers. We warrant that our products will meet our write specifications within the tolerances indicated.
